- editing

Internship in third year of the academy, in 1988

One of the productions I worked on as a Trainee, was a big corporate production, made for a very well known Dutch Multinational company, named Philips.

“Philips Pushing the limits” was produced by an in that period well known production company, named after it’s founder, Henk van Mierlo.

He produced and directed this corporate production.

I worked on the camera departement as a 2nd AC and 1st AC, visiting and shooting lots of nations in 9 weeks starting in Europe and ending in the far east. I never worked again on such a big budget corporate. It was a special and amazing experience. One example for instance: traveling to the far east with 10 people of the crew and more then 55 cases of equipment. Not counting any personal belongings. And all this PERSONAL luggage and equipment was brought as overweight to each county, not as freight.

work experience after graduation:

1989 - 1993 2nd AC / 1st AC / electrician / gaffer

1994 - 2017 23 year working on various productions as operator - cameraman - director of photography. more and more specialising on drama productions.

experience on Alexa - Alexa mini - Amira - RED - Sony F55/F5/FS7  
Panasonic - Phantom - Canon DSLR - XDcam - Digibeta - DV  
35mm - super16 - Super8
